This Leather passes the following *FLAMMABILITY* requirements

CAL TB 170 - BS 5852:1979 - BS EN 1021-1-2::2006

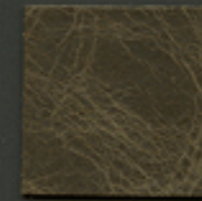

Leather is a natural product, its remarkable qualities make it unique, it's appreciated for durability, comfort, elegance and softness. Above all, leather is easy to clean. Minor color variations may occur from samples shown to the dyelot you receive. Small differences in texture can be found throughout some hides, which results in larger grain near the edges: this is typical for this natural product.

Beauty will result from the form and correspondence of the whole, with respect to the several parts, of the parts with regard to each other, and of these again to the whole; that the structure may appear an entire and complete body, wherein each member agrees with the other, and all the necessary to compose what you intend to form.

Andrea Palladio
